Summary

Here's the truth: I don't fit neatly into one box — and I'm not trying to. I write Java, implement OOPs principles, work through DSA problems, and design database schemas. I also open Power BI, connect a dataset, and build dashboards that answer real business questions. I use Figma to sketch what I want before I build it. These aren't separate interests — they're the same brain working on different parts of the same problem. In the past year, I built a Financial Expense Optimization Dashboard in Power BI that visualizes where money moves across departments. I also built a Daily Sales Report & Tracker in Google Sheets from the ground up. Both are on my profile. Both are real. I'm a 3rd-year CSD student at Sri Krishna College of Engineering and Technology, Coimbatore . I'm not waiting to graduate to start contributing — I'm looking right now. What I'm after: a team that builds real software or works with real data, where I can show up, learn fast, and ship things that matter. Open to: Junior SDE | SDE Intern | Data Analyst | Business Analyst | Product Intern | Hybrid & Remote welcome

Education

SRI KRISHNA COLLEGE OF ENGINEERING AND TECHNOLOGY
Bachelor of Engineering - BE, Computer Science and Design · (September 2023 - May 2027)

St. Mary's Matriculation Higher Secondary School Chinthalakuppam
Higher Secondary Certificate(HSC) · (June 2021 - April 2023)
